

Welcome to the CS Induction

You can login to your RHUL Moodle using the link below.

<https://moodle.royalholloway.ac.uk/mod/folder/view.php?id=536889>

Click on “My Courses”

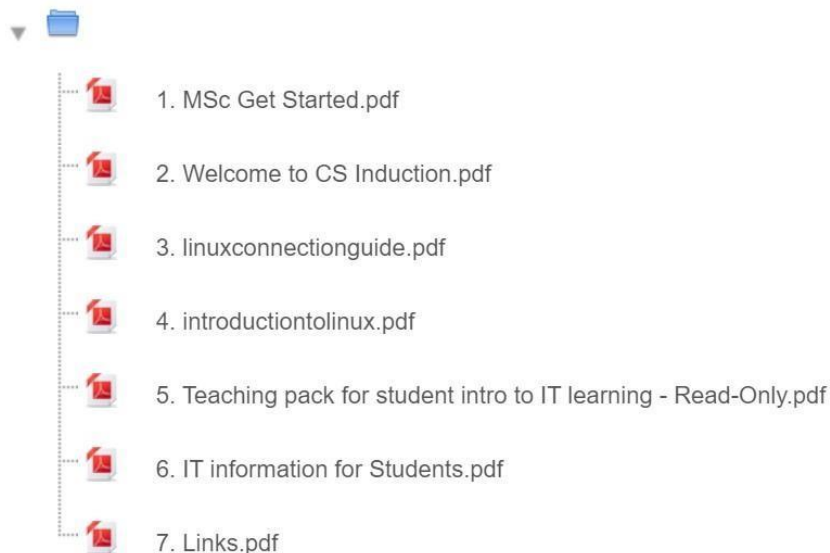

Find the course “**Computer Science Computer Science Department page**” You should see the following folder, click on the folder

Folder contains the following files

CIM Technical Support

Follow the guide [Linuxconnection.pdf](#)

If you are using your own device, you will need to install the following software (Windows & MAC)

[Putty](#)

[No Machine Enterprise client](#)

[WinSCP](#)

Links are also in the Linux connection Guide

The power point is an overview about the system and the department technical support team

“Welcome to CS induction.pdf”

In the PowerPoint, please pay attention to Slide 13 if you are new to Linux

If you are new to Linux then you can use follow the guide [IntroductiontoLinux.pdf](#).

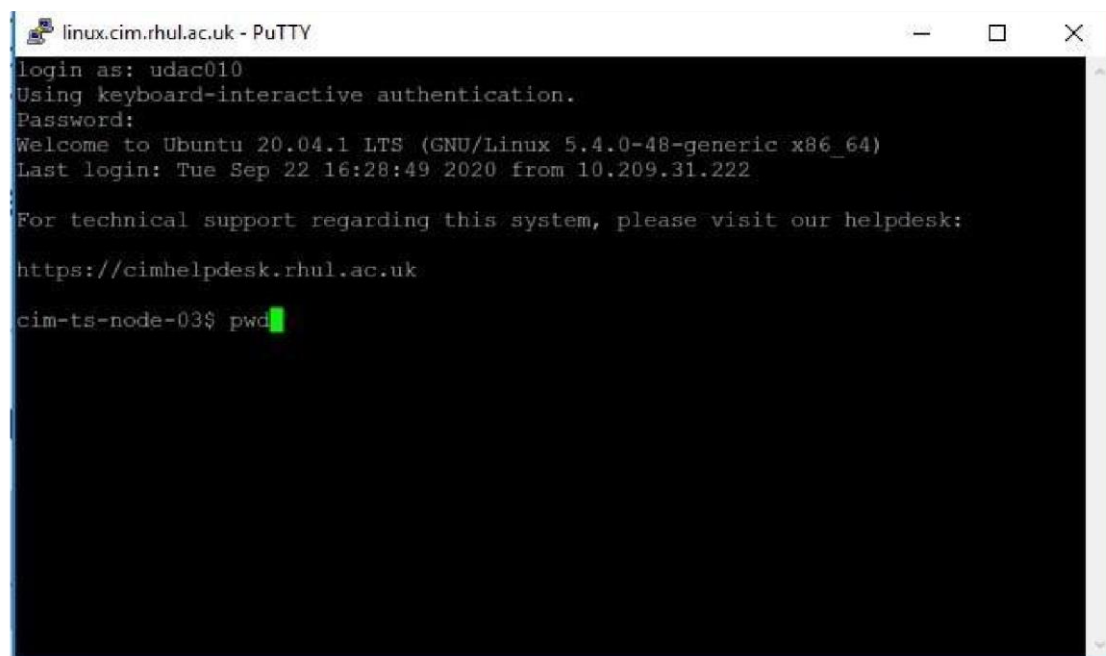

This will help you get a basic understanding of command line

You should follow the Grey banners, which has commands to run in the Command line interface Pages from 16 onward contain the banners

`pwd`

‘pwd’ or ‘print working directory’ is a useful command to check the full path of where you are currently located within the Linux File System.

This can save you from getting lost, or as a confirmation that you are working in the correct directory.

```
linux.cim.rhul.ac.uk - PuTTY
login as: udac010
Using keyboard-interactive authentication.
Password:
Welcome to Ubuntu 20.04.1 LTS (GNU/Linux 5.4.0-48-generic x86_64)
Last login: Tue Sep 22 16:28:49 2020 from 10.209.31.222

For technical support regarding this system, please visit our helpdesk:
https://cimhelpdesk.rhul.ac.uk

cim-ts-node-03$ pwd
```

If you have successfully logged into Linux server and do not require any support in Command line interface, then you have finished 😊

If you feel you require assistance, we will have a MS Teams session available for you to join

Please check your email for the link
